## Product

### Characteristics

#### MOISTURE REPELLENT

GT7 repels moisture super-fast due to its extremely low surface tension and strong penetrating properties..

GT7 fights rust very quickly by breaking up the rust crystals and through its cold-shrinking effect.

#### PENETRATING OIL

GT7 has a strong penetrating ability, so that it can penetrate into even microscopically small openings. GT7 penetrates under the old grease layer, where it goes to work. GT7 has unblocking properties.

#### LUBRICANT

GT7 stops creaks and squeaks in a jiffy. GT7 is an ideal lubricant for fine mechanical and electrical components.

#### CONTACT SPRAY

GT7 detaches oxidation and, thanks to its strong penetrating ability, is the ideal contact spray on electrical installations, home appliances, battery clips, distribution boxes, etc.

#### CLEANER

GT7 cleans pneumatic tools, cylinder locks, deposits of tar, grease, brake fluid, etc.

#### PROTECTIVE AGENT

GT7 fills in all small irregularities and pores and creates a long-lasting, transparent and moisture-repelling layer.

## Use

- Shake well before use.
- Spray and briefly allow to penetrate.

- If necessary, allow the propellant gasses to evaporate.
